Emma

I met with Open Reach yesterday to agree the route requested by the DAC.

The concern is that it involves raising a very large paving slab that is firmly set in the ground. They are almost certain that it would crack in the process.

They have suggested a compromise route, see attached photo, which only means lifting a half size slab.

Can you discuss with the DAC standing committee please.

Thanks

Ian Wayment

Dear Ian,

The DAC standing committee has had a look at this and suggests it would be less conspicuous if the cable were run as shown in yellow on the attached marked up photograph. Would that be OK? If so, I can proceed with sorting out the permission.

Best wishes,
Emma
